of robbery was well timed.

After holding up the train, by flagging, they immediately boarded the express car. The messenger was bound and gagged and the engineer forced to back his train onto a siding. The safe which the robbers believed contained the treasure was then blown and the obbors dropped from the train and ed. The explosion shattered the car. After the first alarm had been sent

out, stating that the express car had robbed, the crew returned to the released the bound messenger ad then discovered that the robbers ad blown the wrong safe.

ph Mayhew, Chief of the Secret to of the United States Express any in New York, to-day received his men at Hulburt, Ark., which from his men at Hulburt, Ark., which is the station just across the Mississippi more from Memphis, Tenn., at which the robbery was committed, telegrams stating that the robbery was not heavy. A portable safe containing the most valuable part of the train's shipment was ovariooked by the robbers, it was said. The telegram reporting the robbers said:

"Empty stationary safe wrecked by robbers. Freight destroyed. Portable safe containing valuables overlooked by robbers. Registered mail taken."

"Our reports," said Mayhew, "Indicate that the robbery will not reach the faure stated in early reports. The registered mail was taken and there is now no way of saying how much it was worth. There may have been some valuable packages in the lot.

"We expect to get the robbers by and the rear properly it is now stated."

To Neglect the Ears and to Have Instruments Used in Treating Deafness. Are you going deaf? Do your ears

Are you going deaf? Do your ears feel stopped up? Have you noises in the head? Does the wax in your ears get hard? Is your hearing worse on cloudy days? Have you a discharging ear? These are important questions for you to ask yourself. They indicate catarrhal disease passing into the tubes that lead to the ears. Every day you neglect it your condition puts you just one day nearer to becoming very deaf. The time to take deafness in hand is the first time you notice a stopped-up feeling of the ears or hardening of ear wax or when you have an earache or when or when you have an earache or when your ear discharges. Taken in time, catarrhal deafness is soon conquered. Neglected deafness is tedious to cure.

"We expect to get the robbers by COURT HELD IN HOCK."

COURT HELD IN HOCK.

Vere treatment to the ear responsible for many of the worst cases of deafness. To treat the ear properly it is now known that operations and instruments on the ear must be avoided. A progressive ear doctor can treat your ears without any cutting, without any probing or use of instruments and without hurt-

ing you a bit. one fact in mind if you have gistrate O'Connor held court in a catarrh and are losing your hearing: this afternoon in Third avenue. You cannot begin your treatment too catery.

ARE YOU GOING DEAF?

I have discovered a method of treating deafness and head noises in which there is no necessity for the passage of in-struments through the nostrils and into

ness, inclines to force it further up into the tubes, thus increasing instead of diminishing the deafness and head noises

"Micelli, the crime you are convicted of is one of the most detestable and dangerous known to law. You stole a boy three years old from fond and loving parents and then blackmailed them. Your crime is not only despicable but shows a rare deprayity of mind. It was a clever schome and I do not think you originated it. You are not along to it. originated it. You are not alone in it and I hope that your companions will
